To whom it may concern:

On the Arviq Hunters and Trappers Organization regular meeting on September 23, 2019, Kivalliq Regional Wildlife Biologist requested to have the quota change of the MX-10 Musk Ox and the results of the 2017 MX-10 Musk Ox survey found a population increase from the last survey in 2012. The estimate in 2012 was 2341 and our estimate for 2017 is 3239 an increase of nearly 1000 animals. Because of the increase the Arviq Hunter and Trappers Organization Board of Directors fully supports to raise the quota from 90 to 95 and agrees with the quota change.

RE: Request for 5 more Muskox Tags for MX10 (North)

The BLHTO is requesting for 5 more muskox tags for MX10 as all of our tags for that location are all used up for this season 2019-20. We have some hunter requests for muskox tags for MX10 and if we are granted 5 more tags, it should be enough.

Thank you and awaiting your reply.

Yours sincerely,
