**Peter Kydd, M.Sc.**

Director of Wildlife Management

Nunavut Wildlife Management Board

RE: Upcoming TAH hearings on the Bathurst Caribou  
Herd.

Dear Mr. Kydd;

My company has had a working relationship with the  
Burnside Hunters and Trappers Association for 18 years  
now and we have worked hard to develop their hunts for  
Muskox, Caribou, Wolf and Grizzly.

We have also in the past two years worked with the  
Umingmaktok HTO on the caribou hunts.

There are upcoming hearings that NWMB is having regarding a TAH on the Bathurst Caribou Herd.

We along with the two HTO's, we are the most affected by this proposal. As pointed out in the GN submission there is currently less than 100 animals being taken from what is now called the Bathurst herd and almost 100% of that is through our hunts in cooperation with the HTO's.

Therefore I would like to formally request to be allowed to do a presentation on this matter to the board and the public at the upcoming meetings.

I believe we will provide very important data to the board to help it make a informed decision.

Can you please let me know if this is approved and if so what other information I may need.

Sincerely,

Boyd Warner

President

Bathurst Inlet Developments.
