THE NUNAVUT WILDLIFE MANAGEMENT BOARD'S

COMMUNITY-BASED MONITORING NETWORK

FEBRUARY, 2017

Out of Kugaaruk:

The first data of 2017 came in from a Kugaaruk harvester. He made a nice catch of char to the south of the community.

Out of Clyde River:

Meetings were held in Clyde River on January 20-22. Clyde River hunters take pride in their role with the Community-based Monitoring Network. They offered suggestions on how to make it even better. We also welcomed two new harvesters to the program!

Total Allowable Harvest for Bluenose-East Caribou

The Government of Nunavut recently put a Total Allowable Harvest in place for the Bluenose-East caribou herd. These caribou are an important resource for Kugluktuk hunters, as well as hunters in the Northwest Territories. Nunavummiut harvesters must now get a tag from the local wildlife office before going hunting. There are 340 tags available this year.

PHOTO OF THE MONTH

This month's photo was submitted by Tracy Nookiguak on behalf of Leslie Ashevak (Clyde River).

Join our Facebook page to post and "like" pictures for a chance to win a \$25 gift card.

The community-based Monitoring Network is looking for a logo and we want <u>YOU</u> to design it!

Submissions should be 1-3 colours and be simple enough to use as embroidery on hats or clothing.

Send your entries by email to jeppesen.nova@gmail.com post them to the Facebook page, or give originals to your data clerk by **March 30, 2017**.

The winning entry will receive a \$500 Visa gift card!
