Nunavut Wildlife Management Board

The Nunavut Wildlife Management Board (NWMB) salutes our Nunavut Territory on its 10th Anniversary.

The Board will endeavor to maintain and protect the territorial wildlife for the residents of Nunavut for generations to come. This involves managing wildlife consistent with the principles of conservation, sustainability and ecosystemic integrity.

Nunavut Wildlife Management Board
P.O. Box 1379 • Iqaluit, NU X0A 0H0

www.nwmb.com

Message from the Chairperson

The past year, April 1st, 2008 to March 31st, 2009 proved to be another busy year for the Nunavut Wildlife Management Board. With the departure of the Chairperson early in the year, I accepted the role of Acting Chairperson for the remainder of the year. The appointment of a new Chairperson had not been completed by the end of this period. There were no other Board member changes.

Four new staff members were hired during this period as we filled the positions of Wildlife Administrative Biologist, Wildlife Management Biologist, Secretary Receptionist and Chief Executive Officer. Mikidjuk L. Akavak formerly of Kimmirut was hired as the Chief Executive Officer during January 2009 and the Board recommended him for the position of Chairperson. While this message was being written, we had not yet received any word on the formal appointment of the Chairperson.

The Board has become increasingly active with requests for hearings and decisions from co-management partners and users of wildlife throughout the Nunavut Settlement Area. The Nunavut Wildlife Management Board theme for the 2008/2009 Annual Report is "Reaching New Heights".

Some of the tasks, meetings, hearings and activities that were carried out during the course of the past fiscal year are outlined below.

The Nunavut Wildlife Management Board started the fiscal year with a Public Hearing in Pond Inlet on April 22 and 23, 2008, regarding the Baffin Bay Polar Bear Total Allowable Harvest. This was a very good lesson on how international concerns can affect wildlife users in communities in Nunavut. The Board then held another Public Hearing on the proposed legal listing of the northwestern population of Grizzly Bear in Nunavut, as a "species of special concern", under the "Species at Risk Act". This Hearing was held in the Kivalliq community of Rankin Inlet during the second week of September, 2008. The Board thanks the people of Pond Inlet and Rankin Inlet for their hospitality. The Board also held a Public Hearing in Iqaluit on February 10, 2009 to consider the level of Total Allowable Harvest for Bowhead Whales in the Nunavut Settlement Area. The NWMB asked the public and organizations involved whether to remove the Total Allowable Harvest (TAH) of Bowhead whales and to possibly set a number of the Total Allowable Harvest (TAH) based on new population findings. The NWMB's decision and recommendation of 3 Bowhead whales was agreed to by the Minister of Fisheries and Oceans Canada, the Honorable Gail Shea, with conditions to review the recommendations after the 2011 harvest season.

The Board also held four regular (quarterly) meetings as well as a number of conference-call meetings.

As per past practice for the Nunavut Wildlife Management Board and its decisions, the Board makes decisions in an in-camera setting when the decisions require the support of respective Federal Ministers. The public is notified once a minister has made a decision. For in-camera decision-making meetings, as described above, the respective government department and the NTI may have an observer present.

The Board approved Nunavut Tunngavik Incorporated's request for funding to assist with Bowhead Hunt training and the purchase of hunting equipment. Two Bowhead Hunts were conducted in the communities of Hall Beach (Sanirajak) and Kugaaruk (formerly Pelly Bay) and both community hunts were successful.

The Board signed a 'Memorandum of Understanding' along with the Minister of Fisheries and Oceans Canada and the Minister of Environment Canada to harmonize the designation of rare, threatened and endangered species under the Nunavut Land Claims Agreement, and the Species at Risk Act (SARA). Under the Species-At-Risk-Act , section 15 (3) states....."COSEWIC must take into account any applicable provisions of treaty and land claims agreements when carrying out its functions".

The development of the second Nunavut Wildlife Harvest Study (HS 2) has been ongoing throughout the 2008/2009 fiscal year and there have been regular meetings conducted by the Harvest Study Steering Committee (HSSC) to guide the work of the contractor. The Board also established the "HS2 Advisory Committee" of co-management partners.

As Acting Chairperson, I attended a "Polar Bear Roundtable" meeting sponsored by the Federal Minister of Environment, the Honorable Jim Prentice. It was exciting to see that the "Vision" of the NWMB, "Conserving wildlife through the application of Inuit Qaujimajatuqangit and Scientific Knowledge", was being included in this National setting.

The 2008/2009 fiscal year was also the first year of implementation of the Fisheries Advisory Committee (FAC) which was developed by the Nunavut Wildlife Management Board to streamline the allocations of fish stocks within the Nunavut Settlement Area and the adjacent waters. The NWMB received and considered recommendations from the FAC on both turbot and shrimp allocations for 2009 and made a number of allocation decisions for the Nunavut Settlement Area.

In January 2009 a court decision was made in favor of the NWMB, namely Article 15.3.7 of the Nunavut Land Claims Agreement whereby the respective Federal Minister would

Photo by: Mark Mallory

have to consult with the Nunavut Wildlife Management Board and that "the Minister has a statutory obligation under the NLCA to consider the new concerns raised by the Nunavut Wildlife Management Board before future transfers of company quota are approved in sub-area 0B".

Despite the downturn in world markets, the Nunavut Wildlife Research Trust fund maintained a respectable growth due to a major portion of the Asset Mix being in Fixed Income. The board allocated $751,500.00 towards government research projects for the 2009-2010 year. The Board approved of 15 single-year research proposals for a sum of $500,200.00 and 4 multi-year funding proposals for $251,300.00 at its meeting in March, 2009. The NWMB also approved $60,000.00 from its Nunavut Wildlife Study Fund for several community-based research projects for which local HTOs, RWOs and other local non-government organizations are eligible.

The section of our annual report covering "NWMB Implementation Activities" will provide the reader with extensive details of our activities and progress. We also encourage you to access our website www.nwmb.com .

We thank our Board Members and staff as well as our co-management partners for their patience, perseverance and dedication in dealing with a heavy workload. We look forward to another successful year in providing sound decisions for the benefit of all wildlife users within the Nunavut Settlement Area. We also look forward to a continuing, good-working, relationship with our co-management partners during the coming year.

Sincerely,

Harry Flaherty

Acting Chairperson

Nunavut Wildlife Management Board

Vision Statement

Conserving wildlife through the application of Inuit Qaujimajatugangit and scientific knowledge.

Mission Statement

The NWMB strives to enable and protect the beneficial utilization of wildlife for and by the beneficiaries of the Nunavut Land Claims Agreement as well as other residents of the Nunavut Settlement Area (NSA) and to manage wildlife consistent with the principles of conservation, sustainability and eco-systemic integrity.

The NWMB co-ordinates its functions and activities with the Regional Wildlife Organizations and the Hunters and Trappers Organizations to ensure communication and co-operation with the many communities of the NSA.

The NWMB seeks to identify, develop and bring to bear the best information and expertise in the formulation of its decisions. The Board recognizes the role and power of various sources of information and expertise, including but not limited to, resource users, community elders, traditional knowledge and modern science.

The NWMB operates in an open forum, informing the public and providing for public input and participation.

Board and Staff Changes

Board Members

There were no new Board Member appointments during the 2008-2009 year.

The Chairperson, Joe Tigullaraq, left the Board during June, 2008. As of March 31, 2009 the proposed appointment of Chairperson is pending approval by the Governor In Council.

Staff

During 2008-09, the following staff were hired:

- Adam Schneidmiller , Wildlife Administrative Biologist, was hired during May, 2008.
- Taqialoo Sataa, Secretary-Receptionist was hired during July, 2008.
- Charlotte Sharkey, Wildlife Management Biologist, was hired during July, 2008.
- Mikidjuk Akavak, Chief Executive Officer, was hired during January 2009 and is waiting for appointment to the Chairperson position.

Board Members and Committees

Members	4-year terms

Nunavut Wildlife Management Board Meetings

Regular Meetings

- Meeting No. 56, May 27-29, 2008
- Meeting No. 57, September 9-11, 2008
- Meeting No. 58, December 3-4, 2008
- Meeting No. 59, March 24-26, 2009

Public Hearings

- Baffin Bay Polar Bear, April 22-23, 2008
- Grizzly Bear, September 10, 2008
- Bowhead Whale, February 10, 2009

Special Meetings

- None

Public Consultation

- None

Conference Calls

- Meeting No. 114, May 6, 2008
- Meeting No. 115, June 12, 2008
- Meeting No. 116, July 10, 2008

NWMB Implementation Activities

During the 12 months from April 1st 2008 to March 31st 2009, the NWMB continued to perform its core functions in a thorough and timely fashion, and to ensure the continued maintenance of a model wildlife management system that has the confidence of the public, Inuit and Government. Set out in this section is a description of the twenty-two NWMB implementation activities undertaken during the 2008-2009 period. Below each general activity, written in blue, is a progress report of specific results and achievements.

a) Complete the design of the second Nunavut Wildlife Harvest Study, and commence data collection for the second planning period;

- The NWMB established a Nunavut Wildlife Harvest Study Steering Committee (HSSC) and Terms of Reference for the HSSC.
- A contract for the development and implementation of the second Nunavut Wildlife Harvest Study (HS2) was prepared and signed by the NWMB and Nunaworks Inc.
- The HSSC held a number of conference call meetings with Nunaworks Inc. to develop a comprehensive document entitled, Statements of Work for Project Modules 1 to 9 concerning the design and delivery of the second Nunavut Wildlife Harvest Study.
- The NWMB sent letters to wildlife co-management partners requesting nominations for the establishment of an HS2 Advisory Committee.
- Regular conference calls were held (Nov-March 31) between the HSSC and Nunaworks to further refine the design and implementation of HS2.
- The Board established the HS2 Advisory Committee of co-management partners.

b) Continue the introduction of the Total Allowable Harvest-Basic Needs Level-Surplus (TAH-BNL-Surplus) management regime for particular stocks or populations of species in the NSA;

- The NWMB requested the most up-to-date science from DFO on stock status for narwhal, walrus and beluga.
- The NWMB wrote to the Minister of DFO requesting the most up-to-date information, - including the recent international scientific review of DFO data, presented at the June 2008 International Whaling Commission meeting - as a necessary prelude to publically considering the TAH for Bowhead whale in the NSA for 2009 and beyond.
- The NWMB held a public hearing to consider the level of TAH for Bowhead whale in the NSA.
- The NWMB met with its co-management partners in Nunavut to develop a method for establishing a TAH for char stocks in the NSA.
- Following the completion of its Special Meeting No. 12 (a hearing into proposed harvesting limitations included in new draft Wildlife Regulations and Orders), the NWMB made a number of TAH decisions for Nunavut wildlife populations.
- The NWMB obtained – and shared with its co-management partners - an expert legal opinion regarding the Board's authority under NLCA S.5.6.16 to establish, modify or remove levels of harvesting
- The NWMB obtained – and shared with its co-management partners -an expert legal opinion regarding what types of harvest should be included in the calculation of BNLs.

c) Pursuant to the principles of conservation, and in conformity with the development and initial introduction of the TAH-BNL-Surplus management regime, make appropriate decisions with respect to maintaining, establishing, modifying or removing TAHs and other restrictions on wildlife harvesting in the NSA;

- The NWMB made 44 harvesting limitation decisions (TAHs and non-quota limitations) following the completion of Special Meeting No. 12.

- The NWMB made a TAH decision, following a public hearing, regarding the Baffin Bay polar bear TAH for 2009.
- The Board approved various sport hunt applications for walrus.
- The NWMB approved regulation changes for snow goose hunting season dates, and bag limits for non-beneficiaries.
- The NWMB made a decision regarding the level of TAH for 2009-2011 for Bowhead whale in the NSA.
- The NWMB made a decision to maintain the current 100t exploratory turbot fishery quota in the NSA.
- The NWMB approved modifications to boundary restrictions for three Kivalliq Muskoxen Management Units.

d) Provide advice to DFO concerning commercial shrimp, turbot, shellfish and other marine species allocations in Zones I and II;

- The NWMB held discussions with DFO on inshore Shrimp Fishing Areas 2 and 3.
- The NWMB met with DFO, Makivik and the commercial fishing industry to discuss an integrated management plan for shrimp management and the modification of fishing areas to reflect land claims in Nunavut and Nunavik.
- The NWMB participated in a working group on the implementation of the precautionary approach to shrimp fishery management in Canada.
- The NWMB approved the conversion of the new Greenland Halibut Zone in Cumberland Sound from exploratory to commercial.
- The NWMB participated in consultations on the NAFO Subarea 0 Integrated Fisheries Management Plan.
- In accordance with its new Fisheries Allocation Policy, the NWMB recommended to the Minister offshore turbot and shrimp allocations for the 2009 harvest season.

e) Equitably allocate Nunavut's share of commercial shrimp, turbot, and other marine resources among eligible fishers;

- The NWMB corresponded with the fishing industry regarding the establishment of the Fisheries Advisory Committee (FAC).
- The NWMB issued a public call for 2009 allocation applications.
- The NWMB established the FAC.
- The NWMB arranged and attended three conference call meetings of the FAC.
- The NWMB arranged for and provided public notice of an FAC public forum and FAC meeting to review fishing allocation applications for the 2009 season.
- The NWMB received and considered recommendations from the FAC on both turbot and shrimp allocations for 2009 – and made a number of allocation decisions for the NSA.

f) Complete the review and analysis of the Community-Based Management (CBM) system for narwhal and beluga whales, and provide advice and recommendations to the DFO Minister regarding the continuation of and improvements to this program;

- The Board requested an extension for the review, and the extension was granted by the Minister of Fisheries and Oceans.
- NWMB technical staff led a Working Group with co-management representation to complete the review of the CBM system for narwhal, and in-community consultations were commenced in the participating communities, with resulting recommendations expected to be delivered to the NWMB in June 2009.
- NWMB technical staff and the CBM Working Group are continuing to review and analyze all relevant information concerning the CBM system for beluga.

Left: NWMB Meeting in Rankin Inlet. **Right:** Pond Inlet - Country Food Feast

Photo by: Adele Jones

Photo by: Mark Mallory

g) Subject to the ongoing development and implementation of the TAH-BNL-Surplus management regime, as well as the receipt of reliable and persuasive scientific information and Inuit Qaujimajatuqangit (IQ), work towards establishing a TAH-BNL for beluga, narwhal and walrus populations;

- The NWMB contacted DFO requesting the most up-to-date stock status reports for these species, in preparation for the future establishment of TAHs, BNLs and potential surpluses for the three species.
- On receipt of the TAH recommendations from DFO, NWMB staff reviewed the document and initiated discussions with DFO staff regarding questions about the information.

Continue to develop appropriate policies and strategies to document Inuit Qaujimajatuqangit (IQ), to identify priority IQ needs, and to continue to promote the inclusion of both IQ and modern science in all aspects of wildlife management;

- The Board entered into a contract with a qualified consultant to review the use of IQ in wildlife management, and to produce a searchable database of relevant IQ documents pertaining to wildlife management.
- The NWMB received the consultant's report and is currently reviewing it.
- The NWMB's April 2008 Baffin Bay Polar Bear TAH Hearing and resulting September 2008 decision meeting focused on the inclusion of both IQ and science in the management of that polar bear population.
- The NWMB's September 2008 Grizzly Bear Hearing and resulting December 2008 decision meeting - with respect to the listing of Grizzly Bear under the Species at Risk Act, - focused on the inclusion of both IQ and science in the determination of the risk status for the Grizzly Bear population in Nunavut.
- The Nunavut Regulations Review Committee (composed of representatives of the NWMB, NTI, DFO, the GN and Makivik Corp.) recently decided to include IQ in the draft Nunavut Fishery Regulations.
- NWMB technical staff, NTI, and DOE held discussions on the use of IQ in wildlife research.
- The NWMB's presentation at the January 16th 2009 Environment Canada Minister's National Roundtable on Polar Bears focused on the inclusion of both IQ and science in the management and protection of polar bears.
- The NWMB's February 2009 Bowhead Whale TAH Hearing focused on the inclusion of both IQ and science in the management of the Eastern Canada – West Greenland Bowhead Whale population.

i) Make appropriate decisions with respect to the approval of plans for the management and/or protection of particular wildlife or wildlife habitats;

- The Board decided to defer further consideration of a request for Exploratory Fishing Licences for 12 water bodies in the Pangnirtung area until the Board has had an opportunity to resolve outstanding issues.
- The Board approved a request from Parks Canada for an extension of time to complete the NLCA Article 5 decision-approval process for the Quttinirpaaq National Park Management Plan.
- NWMB technical staff met with Parks Canada to discuss proposed changes to the Quttinirpaaq National Park Management Plan and to review the process of developing future management plans.
- The Board approved edits to, and additional text to be included in, the Quttinirpaaq National Park Management Plan.
- The Board approved the Blue Whale Recovery Plan.
- The Board approved the Harlequin Duck National Management Plan.
- The Board made harvesting limitation decisions with respect to specific provisions of the draft Wildlife Regulations and Orders, insofar as those Regulations and Orders constitute plans for the management and protection of Nunavut wildlife.
- Two Bowhead whale hunt plans were approved by the Board for the 2008 season.
- The Board approved walrus sports hunt plans for the 2009 harvest season.

j) Continue to provide guidance and advice on wildlife management and research proposals and priorities;

- NWMB staff met with University of Calgary and GN-DOE researchers to provide advice in support of caribou research.
- NWMB staff met with Oxford University researcher to provide advice on IQ research.
- NWMB staff met with Laval University researcher to provide advice regarding snowy owl research.
- NWMB staff reviewed wildlife research permits from the Government of Nunavut, the Department of Fisheries and Oceans, and the Nunavut Research Institute for major concerns and responded accordingly.
- Staff liaised with applicants to the Board's NWRT and NWSF research funding to facilitate submission of research proposals.
- The Board supported the continuation of the exploratory shrimp stock assessment survey in SFA 2, 3 & 4.

k) Continue to evaluate Government and non-government Research Funding Proposals, and to provide funding to researchers from the Nunavut Wildlife Research Trust (NWRT) and the NWMB Studies Fund (NWSF);

- Having approved 2008-2009 NWRT funding in the amount of $741,000 for 18 research projects, and NWSF funding in the amount of $ 41,400 for 2 research projects, the NWMB finalized the Contribution Agreements and released funding for the 2008-09 funding period for NWRT- and NWSF-approved research proposals.
- The NWMB sent call letters to Government Departments and RWOs and HTOs for research proposals for the upcoming 2009-2010 fiscal year.
- NWMB staff reviewed progress reports for research projects previously funded by the NWMB for the 2008-2009 fiscal year.
- The NWMB evaluated 27 NWRT project proposals and 10 NWSF research proposals for 2009-10, and then approved funding for the 24 approved NWRT projects - up to a maximum of $843,000 - for the 2009-2010 fiscal year, and approved funding for the 4 approved NWSF proposals - up to a maximum of $120,000 - also for the 2009-2010 fiscal year.

l) Continue to ensure that wildlife research data and results from projects funded by the NWMB are made available to the public – particularly through the Nunavut Wildlife Resources Coalition Centre (NWRCC) libraries – and encourage others to do likewise;

- The NWMB received and reviewed final reports for the previous year's research projects (2007-08).
- The NWMB filed all final reports in the NWRCC library system.

m) Continue to attend consultations between Canada and Greenland on shared wildlife stocks, and continue to work with administrative agencies and aboriginal peoples from other land claims areas concerning shared wildlife stocks;

- The NWMB chaired a meeting of management boards from Nunavut and the NWT concerning cooperation and the sharing of information regarding shared inter-jurisdictional wildlife populations.
- NWMB staff attended a meeting in Yellowknife with management boards from Nunavut and the NWT, concerning cooperation on wildlife populations.

n) Continue to provide funding to the RWOs and HTOs through the Nunavut Inuit Wildlife Secretariat (NIWS);

- The NWMB distributed all funding for the four quarters of the 2008-2009 fiscal year.
- The NWMB received financial reports for the first three quarters and is waiting for the completion of the Nunavut Wildlife Secretariat's audit report.

o) Continue to communicate and work in cooperation with HTOs, RWOs, the NIWS, NTI and Government Departments, and with other institutions of public government (IPGs) – including other members of the Nunavut Marine Council – concerning land and resource management issues affecting Nunavut;

- The NWMB participated in the working group of the Nunavut Monitoring Committee.
- The NWMB corresponded with its fellow IPGs regarding Nunavut Marine Council issues.
- The NWMB attended a one-day meeting of the IPGs in Yellowknife.
- The NWMB participated in Regional Wildlife Board AGMs,
- NWMB staff participated on the Steering Committee for development of a Wildlife Symposium in Rankin Inlet, with Nunavut-wide participation from HTOs and RWOs. The NWMB also contributed financially to this event, and NWMB members attended.
- RWOs, HTOs, the NIWS, NTI and Government Departments actively participated in the NWMB's hearings and quarterly meetings.
- NWMB's Acting Chairperson attended a polar bear roundtable headed by Environment Canada, where all stakeholders shared their perspectives on management of this high-profile Nunavut species.
- NWMB worked closely with DFO and the Mittimatalik HTO to responsibly handle a humane harvest of a large group of entrapped narwhal near Pond Inlet.
- The NWMB staff met with DFO and NTI staff to discuss the bowhead whale hunt plan approval process and licencing conditions.

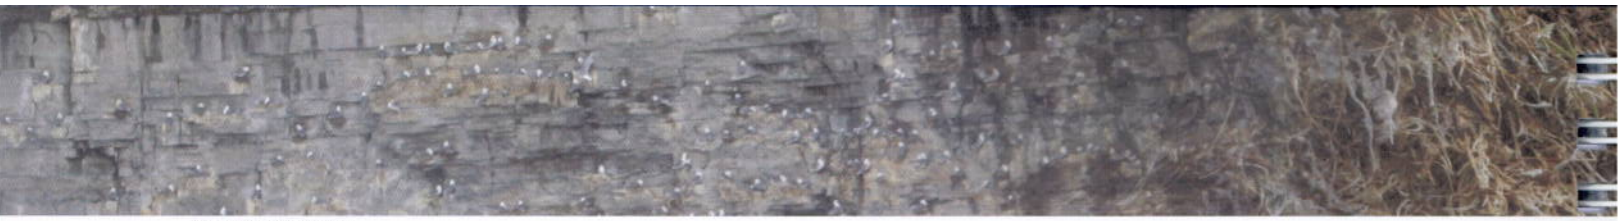

Photo by: Mark Mallory

p) Work towards completing the NLCA decision-making processes for draft harvesting limitations in the Wildlife Regulations and Orders proposed by the GN under Nunavut's new Wildlife Act;

- Following the last of its 5 decision-making meetings for Special Meeting No. 12, in June of 2008 the Board completed and forwarded its comprehensive "Decision Report to the Minister of Environment concerning Harvesting Limitations in the 2008 Nunavut Wildlife Regulations and Orders".
- Following the delivery of its Decision Report to the Minister, the NWMB corresponded with the Minister regarding next steps in the NLCA decision-making process and related consultation requirements.
- The NWMB received the Minister's response to its initial decisions and is preparing to make its final decisions for those inirial decisions that were disallowed.
- In January of 2009, the NWMB met with GN (and federal) officials to discuss the duty to consult in the context of NLCA Article 5 decision-making, including with respect to Special Meeting No. 12 decisions.

q) Commence the implementation of the DFO – Environment Canada – NWMB Memorandum of Understanding to Harmonize the Designation of Rare Threatened and Endangered Species under the Nunavut Land Claims Agreement and the listing of Wildlife Species at Risk under the Species at Risk Act (MOU);

- The NWMB formally ratified the MOU in May of 2008.
- NWMB technical staff met with Environment Canada staff and communicated with DFO staff to effectively shepherd the listing of several species through the MOU process.
- NWMB is currently following the MOU process for five species: red knot, polar bear, peregrine falcon, short-eared owl and beluga whale.
- The NWMB held a public hearing on proposed listing of grizzly bear, and proceeded with the decision-making process in accordance with the MOU
- NWMB forwarded information regarding species being considered for listing, to co-management partners (NTI and NIWS), as per the MOU.

r) Continue to work closely with Government and Inuit in ensuring that new and amended legislation affecting Nunavut recognizes and respects land claims agreements and the jurisdictions of land claims bodies (e.g. progress in development of the Nunavut Fishery Regulations, as well as Regulations and Orders required pursuant to the territorial Wildlife Act);

- NWMB representatives attended two meetings of the Nunavut Regulatory Review Committee to continue the development of the draft Nunavut Fishery Regulations.
- The NWMB completed and forwarded its comprehensive "Decision Report to the Minister of Environment concerning Harvesting Limitations in the 2008 Nunavut Wildlife Regulations and Orders".

s) Where required by new legislation affecting Nunavut wildlife, continue implementing relevant aspects of that legislation (for instance, the Species at Risk Act (SARA) and the Nunavut Wildlife Act);

- The Board held a public hearing in Rankin Inlet during September on the listing of grizzly bear as a species of special concern, and made its resulting decision in December.
- The NWMB forwarded to the Minister its decisions on 3 other proposed SARA listings: rusty blackbird, wolverine and ivory gull.

Photo by: Mark Mallory

t) Continue to play an appropriate role in Nunavut's fisheries development – participation in many forums, including meeting with the Government of Nunavut and NTI, Nunavut fishers, the Federal-Provincial Atlantic Fisheries Council Working Group and the Northern Shrimp Advisory Committee, as well as maintaining frequent communications and regularly attending meetings with DFO officials;

- During July, NWMB staff attended a shrimp meeting in Ottawa with DFO and Makivik.
- The NWMB held discussions with DFO on inshore Shrimp Fishing in Areas 2 and 3.
- The NWMB met with DFO, Makivik and the commercial fishing industry to discuss an integrated management plan for shrimp management and the modification of fishing areas to reflect land claims in Nunavut and Nunavik.
- The NWMB participated in a working group on the implementation of the precautionary approach to shrimp fishery management in Canada.
- The Board established the Fisheries Advisory Committee (FAC) in partnership with NTI and GN-DOE, organized and attended three conference calls of the FAC, and organized an FAC public forum and in-person meeting. NWMB staff met with DFO regarding re-stratification of survey results in SFA 2.
- NWMB staff attended a meeting to discuss an updated management plan for NAFO subareas 0A and 0B, with DFO, GN and industry representatives.
- In November NWMB staff participated in a Fisheries and Aquaculture working group meeting to develop a precautionary approach for shrimp fisheries management in Canada.

u) Commence implementing the Allocation Policy of the Nunavut Wildlife Management Board for Commercial Marine Fisheries (Dec 11/07);

- The NWMB issued a public call for 2009 allocation applications.
- The NWMB established the FAC.
- The FAC held a (NWMB-organized) public forum during October and conducted an initial evaluation of the allocation proposals, at an (NWMB-organized) in-person meeting. The FAC met to review applications, and forwarded its allocation recommendations to the NWMB.
- The NWMB made its allocation recommendations (Zone I - offshore) and decisions (NSA - inshore) and forwarded these to the Minister of Fisheries and Oceans; the allocation recommendations and decisions were accepted by the Minister.

v) In Cooperation with the NWMB's relevant co-management partners, continue the development of a Nunavut Fisheries Licencing Policy;

- The GN's Fisheries and Sealing Division is the recognized lead Nunavut agency to work on the development of a new licencing policy. The NWMB's understanding is that the GN has entered into a contract with a qualified consultant to prepare a draft policy for review by the GN and the NWMB. As soon as the GN/consultant share their initial work towards development of the draft policy, the NWMB will commence a review and be in a position to report progress on this activity.

Nunavut Wildlife Management Board

Auditors' Report

To the Members of Nunavut Wildlife Management Board

We have audited the statement of financial position of the Nunavut Wildlife Management Board as at March 31, 2009, and the statements of operations, changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and signiticant estimates made by the Board's management, as well as evaluating the overalliinancial statement presentation.

In our opinion, these financial statements present fairly. in all material respects. the financial position of the Nunavut Wildlife Management Board as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Nunavut Wildlife Management Board

Notes to the Financial Statements

FOR THE YEAR ENDED MARCH 31, 2009

1. Nature Of The Organization

The Nunavut Wildlife Management Board (NWMB) is an institution of public government established pursuant to *An Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in right of Canada,* also known as the *Nunavut Land Claims Agreement*. The NWMB is the main instrument of wildlife management and the main regulator of access to wildlife in the Nunavut Settlement Area (NSA). In addition. the NWMB identifies research requirements, funds research and carries out research in order to help maintain an effective system of wildlife management in the NSA. The Board also exercises an extensive advisory authority in the marine environment adjacent to the NSA.

The Board is exempt from income taxes under Sec. 149(1)(1) of the *Income Tax Act*.

2. Significant Accounting Policies

The accounting policies followed by the Board are in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies:

(a) Use of Estimates

The preparation of the financial statements of the Board requires management to make estimates and assumptions based on information available as of the date of the financial statements. Therefore. actual results could differ from those estimates.

(b) Revenue Recognition

The deferral method of revenue recognition is followed. Revenue is recognized in the year in which the related expenses are incurred.

(c) Financial Instruments

The Board's financial instruments consist of cash, accounts receivable, due from Nunavut Wildlife Research Trust and accounts payable and accrued liabilities.

Financial instruments are reported at their fair values on the statement of financial position. The fair values are the same as the carrying values due to their short-term nature.

It is management's opinion that the Board is not exposed to significant interest, currency or credit risks arising from these financial instruments unless otherwise noted.

(d) Equipment

Equipment is recorded at cost. Amortization is provided annually at rates calculated to amortize the assets over their estimated useful lives as follows:

Computer Hardware	30% declining balance
Computer Software	100% declining balance
Translating Equipment	20% declining balance
Office Equipment	20% declining balance
Automotive Equipment	30% declining balance
Furniture and Fixtures	20% declining balance
Leasehold Improvements	Straightline over the term of the lease

One-half of annual amortization is recorded in the year of acquisition.

3. Equipment

	2009			2008
	Cost	Accumulated Depreciation	Net Book Value	Net Book Value
Computer Hardware	$ 269,503	$ 227,681	$ 41,822	$ 46,050
Computer Software	151,550	147,163	4,387	19,600
Translating Equipment	137,279	86,928	50,351	48,132
Office Equipment	138,020	112,627	25,393	30,254
Automotive Equipment	51,005	40,595	10,410	14,871
Furniture and Fixtures	88,571	82,130	6,441	8,052
Leasehold Improvements	138,396	66,608	71,788	86,107
	$ 974,324	**$ 763,732**	**$ 210,592**	**$ 253,066**

4. Related Party Transactions

The NWMB pays for all overhead expenses pertaining to the operations of The Nunavut Wildlife Research Trust. a relatcd party whose Trustees are also board members of the NWMB. There are no interorganizational charges made for these services and their magnitude has not been established.

5. Commitments

The Board is committed to minimum annual lease payments under the terms of a lease agreement for its office premises as follows:

2010	$ 133,576
2011	133,576
2012	133,576
2013	133,576
2014	33,394

The agreement expires June 30, 2013. Payments are to be adjusted each year for inflation as measured by the Consumer Price Index. Aftcr 2010, the payments will be adjusted to reflect the fair market rental value of the premises.

6. Operating Contribution Carry Forward

During the fiscal year ended March 31, 2005, the Government of Canada budgeted funding was reduced by $758,219. During the fiscal year ended March 31, 2006, this funding was reduced by an additional $1,319,189 and again in the fiscal year ended March 31, 2008 by $200,000 and March 31, 2009 by $244,725. These amounts totaling $2,522,133 have been approved for carry forward to be used for approved programs any time up to June, 2013.

7. Comparative Amounts

Certain 2008 financial statement amounts have been reclassified to conform to the financial statement presentation adopted in the current year.

Nunavut Wildlife Research Trust

Auditors' Report

To the Trustees of Nunavut Wildlife Research Trust

We have audited the statement of financial position of the Nunavut Wildlife Research Trust as at March 31. 2009. and the statements of revenues and expenses. changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards rcquire that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Trust's management, as well as evaluating the overall financial statcment presentation.

In our opinion. these financial statements present fairly, in all material respects, the financial position of the Nunavut Wildlife Research Trust as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Nunavut Wildlife Research Trust

Notes to the Financial Statements

FOR THE YEAR ENDED MARCH 31, 2009

1. Purpose And Nature Of The Organization

In 1994, pursuant to *A Contract Relating to the Implementation of the Nunavut Final Agreement*, the Government of Canada provided the Nunavut Wildlife Management Board (NWMB) with a single payment of eleven million dollars for the establishment of a Wildlife Research Fund. Its intended purpose was to provide funding for territorial and federal government departments to carry out wildlife research approved by the NWMB.

Upon that basis, the NWMB established the Nunavut Wildlife Research Trust, which was designated a Registered Charity in 1996. Its Trustees are the members of the NWMB. Since 1997, the Trust has provided an alillual funding allocation, exclusively available to government departments. That allocation is administered by the NWMB, in order to address wildlife research priorities as identified by the NWMB.

2. Significant Accounting Policies

The accounting policies followed by the Trust are in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies:

(a) Use of Estimates

The preparation of the financial statements of the Trust requires management to make estimates and assumptions based on information available as of the date of the financial statements. Therefore, actual results could differ from those estimates.

(b) Fund Accounting

The Nunavut Wildlife Research Trust follows the restricted fund method of accounting for contributions.

(c) Financial Instruments

The Trust's financial instruments consist of cash, marketable securities. accounts receivable, due to NWMB and accounts payable and accrued liabilities.

Cash, accounts receivable. due to NWMB and accounts payable and accrued liabilities are reported at their fair values on the statement of financial position. The fair values are the same as the carrying values due to their short-term nature.

Marketable securities are reported at their fair values on the statement of financial position at year-end quoted market prices.

The Trust is exposed to market risk with respect to its marketable securities. Market risk is the risk of a financial loss resulting from adverse changes in underlying interest rates, foreign exchange rates, and equity prices.

3. Marketable Securities

The investment in marketable securities is used to fund research. The cost of these securities at March 31, 2009 is $19,322,622 (2008 - $19,087,926).

4. Risk Management

The Trust manages its market risk through an independant investment manager with oversight from the Trustees.

5. Due To Nunavut Wildlife Management Board

The Trust has transactions with the Nunavut Wildlife Management Board (the NWMB). a not-for-protit organization under the same management. During the year ended March 31, 2009, the NWMB advanced the amount of $40.000 to the Trust to cover short term obligations. The Trust plans to repay all amounts owing to the NWMB early in the fiscal 2010 year. These transactions are interest free and payable on demand.

6. Related Party Transactions

The Trust receives administrative services at no charge from the NWMB. The amount of these services has not been quantified.

7. Income Tax Status

The Trust is exempt trom income taxes under Sec. I49(l)(f) of the Income Tax Act.

8. Comparative Amounts

Certain 2008 tinancial statement amounts have been reclassified to conform to the financial statement presentation adopted in the current year.
