December 3, 2014

Mr. Jason Akeagok
 Executive Director
 Nunavut Wildlife Management Board
 Box 1379
 Iqaluit, NU
 X0A 0H0

Dear Mr. Akeagok:

Re: Pre-hearing disclosure, Southampton Island Caribou Proceeding

Further to NTI’s October 28 2014 letter, I can advise that NTI has received digital copies of a large volume of documents from the Government of Nunavut. (NTI’s legal counsel and NTI’s Wildlife Department received copies on November 26 and December 3, respectively.)

The copies received were not accompanied by a list of the documents, and GN counsel has informed NTI that the GN continues to review the documents for relevance to this proceeding. The copies received are highly “redacted”, such that the content of many of the documents, and any significance they might have to this proceeding, are difficult to determine on the basis of the copies alone. For those reasons, assuming that the GN will inform NTI by December 12 which documents the GN considers relevant, NTI will wait until it receives that information from the GN before NTI commences its review of the package.

The Board has not yet replied to NTI’s October 28 request for comprehensive directions regarding pre-hearing disclosure in this proceeding. NTI interprets the Board’s pause as a courtesy to the GN, which had reported that it would provide its views to the Board on NTI’s draft directions. NTI asks that, in any event, the Board provide its directions as soon as possible after December 12. As previously, NTI’s counsel is available to take part in further discussions between counsel to the Board, NTI and the GN if the Board would find further discussions useful in shaping the Board’s directions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul Irgaut', with a long horizontal flourish extending to the right.

Paul Irgaut

Director of Wildlife

CCs Stephen Pinksen, Assistant Deputy Minister, Dept of Environment, GN
Kivalliq Wildlife Board
