Clyde River H.T.O would like to request 1 quota from 20113/2014 Clyde River Baffin Bay Polar Bear quota because the H.T.O members were told that 1 tag will have to be removed because of the high defence kills that Clyde River had in 2011/2012. As the season was about to close and all the quota was set with the Annual meeting with the H.T.O members and the community of Clyde River, for that matter when the Minister of Environment was at the H.T.O meeting on February 5, 2013. The H.T.O members told or inform that the H.T.O didn't want to touch or remove any tags that was already set for that quota, so as the H.T.O members of Clyde River would really appreciate it if the 1 quota request can be look at ASAP.
