Re: Peary Caribou TAH

Simon Idlout is representing RB HTA on the issue of TAH for Peary caribou for the beneficiaries of Resolute Bay.

Board of Directors want the beneficiaries of Resolute Bay to be able to harvest 80 caribou each year.

- 30 caribou from Bathurst Island .
- 20 caribou from Somerset Island.
- 15 caribou from Prince of Wales Island.
- 15 caribou from Devon Island.

As we know that the peary caribou are now moving back to the area they leaved behind in the past.

And RB HTA is not part of Kivalliq Region. RB HTA is in North Baffin Region.

Please call if you need more information.
