Trappers Organizations

Dear Colleagues:

**Re: Nunavut Wildlife Management Board and Nunavik Marine Region Wildlife Board
Written Public Hearing to Consider the 2022–23 Total Allowable Catch Levels for
Northern and Striped Shrimp**

The Nunavut Wildlife Management Board (NWMB) and the Nunavik Marine Region Wildlife Board (NMRWB, collectively the Boards) invites you to participate in a joint written hearing to consider approval of the Total Allowable Catch levels for Northern (*Pandalus borealis*) and Striped shrimp (*P. montagui*) in the Eastern and Western Assessment Zones, for the 2022-23 fishing season (the Proposal), submitted by the Department of Fisheries and Oceans and the Canadian Coast Guard.

The Proposal also requests recommendations from NWMB and NMRWB on the distribution and allocation of the total allowable catch for Northern shrimp within the Davis Strait-East and -West management units. The Proposal—along with additional documents comprising the best available information—is available for download from the NWMB's website (www.nwmb.com) or by contacting the NWMB at the contact information set out at the end of this letter.

On March 10, 2022, during the NWMB In-Camera meeting (IC001-2022) in Iqaluit, and on March 28, 2022, during the NMRWB Regular meeting #46, the Boards decided to hold a joint written public hearing to consider this request fully. A written public hearing is a hearing in which all submissions are filed in writing and does not have an oral component. Attached to this letter is a copy of the rules for the NWMB and NMRWB's joint written public hearing.

All written materials must be filed with the NWMB—in Inuktitut and English—by no later than **5:00 p.m. (Eastern time) on May 6, 2022**. The requirement for translation at the time of filing is mandatory. All submissions and supporting documentation should be submitted to the NWMB (for administrative purposes; contact information below) in person, by courier or by mail.

Submissions should be clearly marked as pertaining to the NWMB-NMRWB joint written public hearing to consider the 2022–23 total allowable catch levels for Northern and Striped shrimp.

Delivery of materials may also be made through fax or electronic transmission, but only if your department or organization confirms with the NWMB—prior to the filing deadline—that a complete and legible copy of the transmission has been received by the Board. Materials are deemed to have been filed on the actual day of receipt by the NWMB. Please take careful note that unless persuasive written and translated reasons are provided to the Boards for late filing, the Boards will not consider materials for this hearing that are not filed on time.

Subject to relevant confidentiality or privacy concerns, all submissions and supporting documentation will be placed on the NWMB's website and will be available for download. Please keep in mind that the more thorough, reliable, and persuasive submissions and supporting documentation are, the more weight they will be given by the Boards in their respective *Nunavut Agreement* and *Nunavik Inuit Land Claims Agreement* decision-making processes.

After the deadline for delivery of written submissions, the Boards will consider all the relevant evidence and arguments filed and will make their respective decisions and recommendations on the Proposal to the Minister of Fisheries and Oceans Canada pursuant to Section 5.3.17 of the *Nunavut Agreement* and Section 5.5.7 of the *Nunavik*

Inuit Land Claims Agreement.

If you require further information, please do not hesitate to visit the NWMB's website (www.nwmb.com), or to contact the Boards directly:

<p>NUNAVUT WILDLIFE MANAGEMENT BOARD P.O. Box 1379, Iqaluit, NU X0A 0H0 Phone: (867) 975-7300 Fax: (888) 421-9832 Email: receptionist@nwmb.com</p>	<p>NUNAVIK MARINE REGION WILDLIFE BOARD P.O. Box 433, Inukjuak, QC J0M 1M0 Phone: (819) 254-8667 Fax: (819) 254-8816 Email: info@nmrwb.ca</p>
