

The School of Environment and Sustainability at the University of Saskatchewan and the Nunavut Wildlife Management Board (NMWB) are looking to hire a Research Assistant to work on a polar bear research project.

The goal of this project is to analyze Inuit Qaujimajatuqangit of polar bears that has been documented during public hearings held by the NWMB. This project is expected to provide critical information for the co-management of polar bears in Nunavut and beyond.

The Research Assistant will work with our team and an Inuit Steering Committee to:

- Let Nunavummiut know about this project through community meetings, radio interviews, and social media
- Participate in project workshops
- Learn about polar bears, Inuit Qaujimajatuqangit, and research

Qualifications: High school diploma; be willing and able to

travel to communities in Nunavut; ability to use social media and strong communication

skills

Start Date: As soon as the position is filled

(as early as July 2022)

End date: This is a one-year position with a possibility

of extension

Location: You can be based anywhere in Nunavut

Hours: Flexible, part-time hours

Salary: Competitive salary depending on experience
