

NUNAVUT WILDLIFE STUDIES FUND FUNDING GUIDE

INTRODUCTION

Article 5.2.37 of the Nunavut Land Claims Agreement (NLCA) states "*there is a need for an effective system of wildlife management, and to be effective, the system of management requires an efficient, coordinated research effort*".

The Nunavut Wildlife Studies Fund (NWSF) was created by the Nunavut Wildlife Management Board (NWMB or Board) to fund community-based management and research projects in Nunavut, in particular projects led by Hunters and Trappers Organizations (HTOs). The NWSF provides an annual allocation of studies funds to encourage Inuit and community-based organizations to undertake and lead research projects that directly address community needs and concerns related to the management of wildlife in Nunavut.

Research is necessary to ensure that wildlife resources are harvested in a knowledgeable and sustainable way so that Nunavummiut can continue the hunting and fishing that is so essential to their way of life. The NWMB has a lead role to play in this area and is committed to making wildlife research responsive to the needs and concerns of the people of Nunavut.

Each year in December, the NWMB determines the amount of funding that will be available for the NWSF. The NWMB may increase the funding for the NWSF during the Board's consideration of applications on a case-by-case basis.

ELIGIBILITY FOR FUNDING

Inuit organizations, community-based organizations, and individuals eligible for funding under the NWSF include, HTOs, Regional Wildlife Organizations (RWOs), Regional Inuit Associations (RIAs), and residents of Nunavut. To be eligible the research must be conducted within the Nunavut Territory and must contribute to the management of wildlife in Nunavut.

Inuit organizations, community-based organizations, and individuals are not limited in the number of applications they submit for NWSF funding. However, applicants should consider that there is a limited amount of funding available to be distributed each year. By submitting a proposal, the organization or individual is committing to the time required to complete the project.

Government and non-governmental organizations, including educational institutions and private companies, are not eligible for NWSF funding. The NWMB encourages cooperative research with government and non-governmental organizations but projects funded under the NWSF must be clearly led by Nunavut Inuit organizations, community-based organizations, or residents of Nunavut and must directly address community needs and concern.

The NWSF does not require a minimum funding contribution from an applicant when submitting a proposal.

The NWSF will not fund budget items which do not directly support a proposed research project. The following are examples of budget items that the NWMB will not fund:

- equipment purchase and leasing;
 - maintenance cost of equipment already owned;
 - funding for equipment or supplies for future years of research if not occurring in the funding year (e.g. large fuel purchases);
 - administration fees (e.g. cost for recovery of light, heat, office and/or laboratory supplies); or
 - capital works and/or general infrastructures costs.
-

APPLICATION PROCEDURE / FORMAT

Applications may be submitted at any time, as there is no submission deadline. The NWMB will consider proposals for funding at their quarterly meetings in March, June, September and December of each year.

Applications can be submitted in Inuktitut or English and must comply with the format, content and submission requirements as specified in the application form. The application form can be downloaded from the NWMB's website (www.nwmb.com) or by contacting the NWMB. A proposal should be submitted as a mature research plan ready for implementation. All details in the application must be current at the time of the submission and must be focused on the current funding year and not the long-term research plans for the project. Applicants are responsible for ensuring that their applications are complete. NWMB staff may contact applicants to obtain more information concerning their applications during the evaluation process.

Applications must be submitted by a designated project leader who must take responsibility for the proposed project and the communication of the results. The NWMB defines a project leader as an individual who will: (1) be responsible for the direction of the proposed project; (2) assume the administrative and financial responsibility of the project; and (3) receive all related correspondence from the NWMB. In submitting a proposal, the organization or individual and project leader are consenting to the application being publicly available.

At the time of submission of an application all obligations regarding previously funded projects involving the Inuit organization, community-based organization, or individual must have been fulfilled to the satisfaction of the NWMB. Such obligations include the provision of progress interim reports, interim financial reports, final financial reports and final reports. Any outstanding obligations will be factored into the scoring of the application by NWMB staff. Applications will be disqualified if the applicant fails to meet all reporting obligations regarding previously funded projects and may not be eligible for future funding.

Additions, deletions and modifications will not be accepted after submission, unless invited or pre-approved by the NWMB. Proposals may be withdrawn by providing written notice to the NWMB.

All applications will be assessed for completeness and issued an NWSF project number and the associated organization/project leader will be notified of this number for future communications. The organization/project leader are expected to use this NWSF project number in all communications with the NWMB.

FUNDING LEVELS

The amount of funding available from the NWSF for the funding year will be decided annually by the Board as part of the annual budget review process in December. The NWMB will consider all eligible applications that meet the submission requirements based on their merits and in light of the funding available. Due to limited funding the NWMB may be unable to fund all worthy applications.

In selecting projects for NWSF funding, the NWMB strives to fund projects that are clearly led by Nunavut Inuit organizations, community-based organizations, or residents of Nunavut and must directly address community needs and concern. Additionally, the NWMB funds projects that will directly address the identified NWMB and regional wildlife management and research priorities (please refer to the current *NWMB Wildlife Management and Research Priorities* and *Regional Wildlife Management and Research Priorities* available from the NWMB and in future online at www.nwmb.com).

Applicants may request NWSF funding in two ways:

1. Single year funding
2. Preliminary study funding

The NWSF does not provide multi-year funding; therefore, a separate application is required for each year if the project requires more than one year to complete the project objectives.

SINGLE-YEAR FUNDING

Individual projects may request single-year funding up to **\$30,000**.

The NWMB recognizes the complexity of wildlife research and understands that most wildlife research projects are not completed in a single year. Applicants should be aware, however, that the NWMB will not fund projects that are long-term continuous monitoring projects.

Applicants may apply for single-year funding for a project that was previously funded. However, receiving funding during one funding period does not guarantee that the project will be funded in future years. In addition, each year's application must state the rationale and research plan for that funding year.

PRELIMINARY STUDY FUNDING

Individual preliminary studies may request up to **\$7,500**.

Preliminary studies should be designed to allow for community consultation and/or the formation of a project design in consultation with co-management partners or consultants prior to a full funding request. The maximum amount of preliminary study funding that can be awarded each funding year is 25% of the total funds available to allocate.

Examples of project focuses that would be eligible for preliminary study funding are the following:

- Contracting of consultants or Government departments to assist in development of research design

- consultation on research methods prior to development of research project;
- consultation on community support for a proposed study;
- consultation on level of community involvement and participation in a research project;
- consultation on how to include Inuit Qaujimagatugangit (IQ) in a research project.

While research may be undertaken during this preliminary year of work, it will not be a requirement of the funding. A single project will only be eligible for preliminary study funding once. The NWMB expects that the results obtained while receiving preliminary study funding will lead to the development of a research project in future years.

All successful applicants of preliminary study funding are required to fulfill the NWSF reporting requirements.

UNUSED FUNDS

Successful applicants should be aware that any funds remaining unused at the end of the fiscal year (March 31) must be returned to the NWMB by **June 30**.

The NWSF does not allow the carry-over of funds from one year to the next.

MANAGEMENT AND RESEARCH PRIORITIES

The NWMB will establish its own Wildlife Management and Research Priorities and will develop Regional Wildlife Management and Research Priorities through the completion of regional workshops once every three years.

Proposals will have a better chance of being funded if they address an NWMB or regional priority (please refer to the current *NWMB Wildlife Management and Research Priorities* and *Regional Wildlife Management and Research Priorities* available from the NWMB and in future online at www.nwmb.com). Applicants must clearly indicate how the project will address one of the priorities in the appropriate section of the NWSF application.

The NWMB accepts a broad and simple definition of research as simply "finding things out". This can be done by western scientific methods, the gathering of Inuit Qaujimagatugangit (IQ), or a combination of the two. The NWMB encourages the use of available IQ/Traditional Ecological Knowledge (TEK) in research to the extent possible and demonstration that this information has been considered in the study's goals, objectives, and design.

The NWMB expects that the relevant HTO(s) or RWO(s) will assist with the identification of appropriate knowledge holders to obtain information. In addition, projects that include or incorporate IQ/TEK should commit to identifying key informants in reports, presentations, and publications, unless confidentiality has been specifically requested.

The NWMB is not an economic development agency; hence resource development activities such as experimental harvesting programs, product development and marketing studies will generally not be considered for funding. Similarly, the NWMB is not primarily focused on effects to human health or related issues. Research on contaminants, animal health and diseases, etc.

will be considered insofar as they concern the productivity or health of the wildlife populations themselves, which must clearly be outlined in the application.

Projects that involve the compilation of existing data will not be funded, unless this is an integral part of a project which is judged to be necessary in meeting wildlife management and research priorities. In such cases, the proposal must include a detailed basis for and statement indicating, the management or research objectives to which the data would contribute and provide the specific questions to be addressed. Projects that involve the development of research aids and tools (including computer programs), must include a detailed basis for, and statement indicating, the research objectives to which these activities would contribute and provide the specific research questions to be addressed.

CONSULTATION REQUIREMENTS:

The NWMB anticipates that most research will be done with the cooperation and active participation of local people. For NWSF projects that affect more than five communities, a letter of support from the affected RWO(s) is required. If less than five communities are affected, a letter from each community HTO is required.

In cases where the project leader is denied or is unable to obtain a letter of support from the HTO(s)/RWO(s), the NWMB will still consider funding a project if the applicant has done a conscientious job of consulting, and there are no objections from the communities (although communities may not have sent a letter of support).

The NWMB requires the following demonstration of conscientious consultation, when HTO(s)/RWO letters of support have not been obtained:

1. Details of the attempted consultation;
2. Evidence of adequate communications with the affected HTO(s)/ RWO(s):
 - a. all the information provided to them; and
 - b. a reasonable opportunity to express their interests and concerns;
3. All HTO and RWO responses to follow-up communications.

The NWMB expects that organizations will report the results of their work to local communities. Plans for community reporting must be provided in the application. Copies of community reports must also be provided to the NWMB. The NWMB recommends that all projects provide in-community reporting of the results but understands that due to logistics and costs that this is not always possible.

REPORTING REQUIREMENTS

The following reports are required by the NWMB:

Quarterly Application Review	Interim Project Update and Financial Report	Final Project and Financial Report
March	January 15 th	June 30 th
June	April 15 th	September 30 th
September	July 15 th	December 31 st
December	October 15 th	March 31 st

It is the responsibility of the project leader to coordinate the submission of these reports. Failure to submit the required reports on time or in the proper format identified in this funding guide will result in the rejection of future funding requests from the Inuit and/or community-based organization or the individual.

Reports may be submitted by e-mail (preferred), fax or regular mail. If submitting electronically, do not send additional hard copies. Receipt of all reports will be acknowledged by the NWMB when received. For electronic submissions, the file names of each report should follow the following format: <NWSF project number> <organization> <type of report> <date of submission (year/month/day)> (e.g. 2018-001-Grise Fiord HTO-Interim project report-18/01/15).

Requests for extensions of the NWSF reporting requirements will be considered on a case-by-case basis, if a persuasive argument can be made for granting an extension. Requests for extensions must be made to the NWMB in writing two weeks in advance of the deadline of a report. If a request for extension is granted an agreed upon deadline for the report will be negotiated with the project leader and the NWMB.

All reports that are submitted after the deadline that were not previously granted an extension will be considered late and this will be factored into future funding requests as a penalty during the application scoring process. New project proposals will not be accepted from applicants with outstanding reports. Applicants who submitted reports late during the previous funding period will be deducted up to six (6) points.

INTERIM PROJECT UPDATE

The purpose of this update is to provide the NWMB with information on the progress of the project before new proposals are considered for the coming year. Interim project updates should contain the information provided below.

There is no particular format for the interim updates, but they should provide an indication of completed work, ongoing and planned work that has not yet been completed, known or anticipated results, employment and training provided to Nunavut residents and future plans. Interim updates do not need to be as detailed as final reports and should not exceed 4 pages. The following items are required to be included at the beginning of the interim updates.

Required information for Interim Project Updates:

1. NWSF Project Number: (e.g. 2018-001)
2. Project Title: Provide a one to two sentence title as identified in your application for funding.
3. Project Leader: Provide name and contact information, including a telephone and email where you can be reached.

FINAL PROJECT REPORT

Final project reports will be used by the NWMB as the basis for making decisions about the wildlife population in question, if required. Final project reports are, and should follow the format provided below.

Final project reports should provide all relevant results and conclusions from the research. The final project report should be as detailed as possible, including all technical information. There is no page limitation for final project reports.

All NWSF final project reports will be uploaded to the NWMB's website.

Required format for Final Project Reports:

1. NWSF Project Number: (e.g. 2018-001)
2. Project Title: Provide a one to two sentence title as identified in your application for funding.
3. Project Leader: Provide name and contact information, including a telephone and e-mail where you can be reached.
4. Summary: Provide a non-technical summary of your project.
5. Project Objectives: Provide an analysis of the project objectives and achievements.
6. Materials and Methods: Provide information on materials and methods used during the research project.
7. Results: Provide analysis of results of the research, include all data collected.
8. Discussion/Management Implications: Provide explanations as to the possible current and future management implications arising from your research. Include recommendations pertaining to the NWMB's mandate.
9. Reporting to communities/resource users: Provide an updated schedule of consultations as per 5.2 of the NWSF application. Indicate any status or changes to schedule.
10. References

INTERIM AND FINAL FINANCIAL REPORTS

These reports should include projections of expenditures to the end of the fiscal year if research is still on-going.

Interim and final financial reports are required and are to be included with the Interim Project Update and the Final Project Report; both reports must follow the format provided below. Interim financial reports should not exceed 2 pages. The interim financial report may also serve as the final financial report if all research and expenses are complete prior to submission of the interim report. If the interim financial report is to serve as the final financial report, this must be confirmed to the NWMB in writing when the department provides its package to the NWMB.

Any significant variance (\$1000 or 10% on any line item) from the budget in the original proposal accepted by the NWMB must be explained.

Required format for Financial Reports:

1. NWSF Project Number: (e.g. 2018-001)
2. Project Title: Provide a one to two sentence title as identified in your application for funding.
3. Project Leader: Provide name and contact information, including a telephone and email where you can be reached.
4. Original Project Budget: Provide a copy of the original budget from the application approved by the NWMB. Line items can be explained or expanded on using footnotes.
5. Original Contributions: Provide a table summarizing contributions of the NWMB and others, from the application approved by the NWMB with explanations of any variation from the original proposal.
6. Explanation of changes: Provide a list of any changes in the original project budget or original contributions.
7. Financial Report: Provide a financial report using the below format.

Budget Item	Budgeted	Disbursed	Variance
TOTAL			

Balance, if any, to be returned to NWMB: _____

8. Explanation of variances: Provide a list of explanations of variances, if applicable.
9. Verification of information provided: Use the below statement and provide signature at end of report:

I certify that this is an accurate statement of the Board project funds received and disbursed in accordance with the joint contribution agreement.

 Project leader

PROPOSAL EVALUATION

The evaluation process of applications for NWSF funding involves a two-fold review process, which includes scoring of the proposals by NWMB's Wildlife Section staff and then a review by the members of the NWMB at its March, June, September, and December meetings.

The NWMB's Wildlife Section evaluation is based on a set scoring system using four main criteria to determine a total score out of 100:

1. Research Priority (20 points)
2. Quality of Research (25 points)

3. Applicant Priority (20 points)
4. Training and Employment (20 points)
5. Consultation and Reporting (15 points)

Applicants should be aware that not all proposals are brought to the NWSF review meetings for consideration by the NWMB Board members. A proposal must score at least 50 points to be considered. All organizations and project leaders will be notified in writing by the NWMB if their project will proceed to the second evaluation process.

The Board will publicly review the proposals in the second evaluation process at the NWSF meeting. NWMB Wildlife Section staff will provide a briefing note summary of the project based on the information provided. Applicants are not required to present their proposals to the Board. However, applicants are allowed to sit-in during the Board's review of the proposals and are encouraged to do so to respond to questions from the Board, if possible. The NWMB recognizes that this is not always financially or logistically possible and attendance at the meeting is not factored into whether a project is funded or not.

Receiving a high score based on the scoring criteria does not automatically mean that a project will be funded. The Board considers a number of other external factors when determining which projects merit NWSF funding.

NWMB Board members have the right to make recommendations solely on the basis of their knowledge and expertise, and may:

- decide if the proposal meets the eligibility criteria set out in this funding guide;
- identify and consider any other additional information that the proposal or NWMB staff did not consider when recommending a proposal be funded or not funded;
- determine an alternative ranking of the proposals based on more recent priorities;
- assess and recommend different amounts of funding for a proposal; and
- create additional funding conditions prior to the issuance of funding.

SCORING CRITERIA: MANAGEMENT AND RESEARCH PRIORITIES

Management and research priorities are scored by NWMB Wildlife Section staff based on *NWMB Wildlife Management and Research Priorities* and *Regional Wildlife Management and Research Priorities* for a total score of 20.00.

The NWMB priorities are established by the Board based on the NWMB's primary and secondary objectives as outlined in subsections 5.2.33 and 5.2.34 of the Nunavut Land Claims Agreement. The NWMB's priorities can be found in the *NWMB Wildlife Management and Research Priorities* available from the NWMB and in the future on the NWMB's website (www.nwmb.com). The NWMB priorities are ranked from 1 to 6, as determined by the NWMB every three years. The maximum point allocation for NWMB priorities is 5.00 points.

The *Regional Wildlife Management and Research Priorities* are established by the NWMB through regional workshops completed by the NWMB every three years. The regional priorities are ranked from 1 to 6, as determined by regional representatives. The maximum point allocation for these priorities is 15.00 points.

NWMB Priorities	5.00 points
Regional Priority	15.00 points

In order to qualify for the point allocations for the NWMB and regional priorities, the project's main objectives must address the priority and the results of the project must directly contribute to addressing the priority through the application of results. If a project addresses a number of priorities, the point allocation will be assigned based on the most relevant priority.

SCORING CRITERIA: QUALITY OF THE STUDY

The quality of research is scored by NWMB Wildlife Section staff based on three main criteria, for a maximum of 25.00 points.

Methodology and project design	10.00 points
Will the project provide information that will be applicable to the NWMB in its wildlife management activities in the near future (1-3 years)?	10.00 points
Project uses a combination of IQ/TEK and conventional scientific techniques	5.00 points

SCORING CRITERIA: APPLICANT PRIORITY

The NWSF was created by the Nunavut Wildlife Management Board (NWMB or Board) to fund projects led by Inuit and/or community-based organizations or Nunavut residents, in particular HTOs and Inuit beneficiaries. The maximum point allocation for priority applicants is 20.00 points.

Inuit organization (e.g. HTOs) or Inuit Beneficiary	20.00/20.00 points
Nunavut community-based organization (e.g. community research organization)	15.00/20.00 points
Nunavut resident	10.00/20.00 points

SCORING CRITERIA: TRAINING AND EMPLOYMENT

Funding and training is scored by NWMB Wildlife Section staff based on two main criteria, for a maximum of 20.00 points.

Skills development or training for Inuit beneficiaries	10.00 points
Employment of Nunavut residents	10.00 points

SCORING CRITERIA: CONSULATION AND REPORTING

Consultation and reporting is scored by NWMB Wildlife Section staff based on three main criteria, for a maximum of 15.00 points.

Regional or community pre-study consultation and support for project (e.g. HTO board letters, phone calls)	10.00 points
Plans for reporting to communities (e.g. in-community oral reporting and/or distribution of a written report)	5.00 points

Applicants are strongly discouraged from contacting the NWMB's Wildlife Section staff regarding the scoring of their proposal(s). The breakdown and rationale for the scores made by NWMB staff are not publicly available and are only made available to Board members upon request.

NOTIFICATION OF FUNDING DECISIONS AND FUNDING CONDITIONS

All individual applicants will be advised through written notification of the NWMB's funding decisions. Projects that have been approved for funding will also be notified of the funding conditions that are required to be met. Projects funded by the NWSF must provide confirmation in writing of other funding identified in the proposal being approved.

For projects that have not met the NWSF consultation requirements at the time of NWMB approval, funding will be conditional on the project meeting the NWSF consultation requirements. The NWMB may also establish additional funding conditions prior to funding being issued.

Requests for extensions to meeting NWMB funding conditions will be considered on a case-by-case basis, if a persuasive argument can be made for granting an extension. If a request for an extension is granted an agreed upon deadline will be negotiated with the project leader and the NWMB.

CONTRIBUTION AGREEMENT:

Once the funding conditions have been met, the NWMB will negotiate a Contribution Agreement with the associated organization or individual. NWMB staff will contact the project leader to negotiate the Contribution Agreement.

Annual schedule for the NWSF and Important Dates

Inuit and community-based organizations advised of: <ul style="list-style-type: none">• Any changes in NWSF Policy;• Any changes in the NWMB and Regional Wildlife Management and Research Priorities; and• Any changes to the due date for project applications for next fiscal year.	October 31 st
The NWMB meets to decide funding level for the next fiscal year.	December

Applications can be submitted throughout the year; however, the quarterly NWMB Board meeting at which applications are approved will be used to determine the following deadlines				
NWSF application submission deadline	January 15 th	April 15 th	July 15 th	October 15 th
Quarterly NWMB Board meeting at which application was approved	March	June	September	December
NWMB provides written notification of funding decision	Mid-April	Mid-July	Mid-October	Mid-January
Contribution agreements issued and funding disbursed	August 1 st	November 1 st	February 1 st	May 1 st
Interim Project and Financial Update	January 15 th	April 15 th	July 15 th	October 15 th
Final Project and Financial Report	June 30 th	September 30 th	December 31 st	March 31 st

CONTACT INFORMATION

NWMB staff are available to provide general advice and clarification but are not able to comment on draft applications or enter into correspondence on the detail of applications. Prior to contacting NWMB staff this funding guide should be reviewed carefully.

All NWSF email inquiries should be sent to the below email address, upon which you will be forwarded to an appropriate NWMB staff member. All email inquiries must include "NWSF inquiry" in the subject line.
