RECEIVED MAR 01 2007

Dear Jim:

**Re: NTI's Musk Ox Submission to NWMB**

NTI has requested and received an extension of one month to submit our position and comments on the GN's revised proposed TAHs and NQLs for Musk Ox. NTI Wildlife Department staff have found ourselves in a position of not being able to complete our submission to the NWMB by the 28 FEB 07. This has been due to a number of contributing factors; the time required to review a substantial amount of information on Musk Ox biology and ecology, consultations with and responses from Inuit who are knowledgeable on this subject and are affected by the proposed limitations, and NTI's commitment to ensure that our submission to the NWMB is complete, concise and translated on this important issue. We are making every effort to ensure that the submission will be completed no later than the 9 March 07.

Sincerely,

Glenn Williams  
Senior Wildlife Advisor  
Nunavut Tunngavik Inc.

cc Stephen Pinksen – Gov't of Nunavut
