Re: Letter of Support for Polar Bear Credit Utilization

1. Aiviq HTO (Cape Dorset) request for 5 male tags from their Foxe Basin credits:
Supported
2. Hall Beach HTA request for 2 tags (1 male & 1 female) from their Gulf of Boothia credits:
Supported
3. Pangnirtung HTO requested 11 tags (9 male & 2 female) from Davis Strait credits: GN informed the Executive that the Pangnirtung HTO didn't have any female credits, so Pangnirtung opted to request for only male credits of 9. Once Pangnirtung confirmed this on the call, QWB supported the request for 9 male tags under their Davis Strait population credits.

RE: Request to use Polar Bear Credits for 2015-2016 Harvest

The Aiviq Hunters' and Trappers' Organization (HTO) would like to request to use 5 male polar bear credits from the accumulated credits (male 9.07 and female 0 as of 2014-2015 season) for the 2015-2016 harvest season from the Foxe Basin polar bear subpopulation. The accumulated credits have been verified with the Department of Environment.

We stopped our harvest early last season due to 2 lost bears which were in turn were counted as females against our quota this season (see Table 1). We would appreciate it if you can assist us in getting the requested credits.

Table 1 outlines the 2014-2015 harvest and recommended 2015-2016 harvest for Cape Dorset.

Community	Pop.	Base Allocation	Allocation 2014-2015			Harvest 2014-2015			Recommended Harvest 2015-2016
