Nunavut Wildlife Management Board
Attn: Daniel Shewchuk
Chairperson

Dear Mr. Shewchuk,

**Re: Kitikmeot Regional Wildlife Board Position on the
Qikiqtaaluk Wildlife Board Proposal on the Inuit System of
Narwhal Management near Northern and Eastern Baffin Island**

The Kitikmeot Regional Wildlife Board (KRWB) staff brought up the above subject (QWB Proposal) to a conference call yesterday (February 10th, 2022).

It was discussed and KRWB decided not to support the Qikiqtaaluk Wildlife Board's proposal. Although the QWB proposal indicates that the Somerset Island and the TAHs for the communities will not be affected in any way, we feel that the current narwhal management system is working and that it should remain status-quo.

Please feel free to contact me if you have any questions or concerns.

Yours truly,

Paul Ikuallaq
Chairperson
