A group of five reindeer standing in a snowy, mountainous landscape. The reindeer are of various sizes and colors, ranging from light brown to dark brown. They are standing on a snow-covered ground, and the background shows a steep, snow-covered mountain slope.

A map of the North Atlantic region, including parts of North America, Greenland, and Europe. Two areas are highlighted: Area 1, colored blue, is located in the northern part of the region, primarily over Greenland and northern Canada. Area 2, colored yellow, is located in the southern part of the region, primarily over the British Isles and the Atlantic coast of Europe. Area 2 is outlined with a thick red border. The map also shows the outlines of the continents and islands in the region.
